X-MEN/AVENGERS CROSSOVER

The biggest event of the season is upon us with the **X-MEN/AVENGERS** crossover, a 6-part action fest celebrating the 30th Anniversaries of comicdom's two most spectacular super hero teams. Kicking off in September with **AVENGERS #368** and running through **X-MEN #26**, **AVENGERS WEST COAST #101**, **UNCANNY X-MEN #307**, **AVENGERS #369**, and **X-MEN #27**, the crossover will take readers on a rocky ride complete with twists and hairpin turns. **AVENGERS #369** is a special book in itself, bearing an all-platinum foil cover that is sure to draw readers with the same force as its foil-covered predecessors, **#360**, **363**, and **366**.

The **X-MEN/AVENGERS** crossover slams into high gear from the get-go! The action begins when Fabian Cortez arranges for the kidnapping of Luna, Magneto's granddaughter. When Magneto gets wind of Cortez's activities, he orders the mutant Exodus to bring his children, the Scarlet Witch and Quicksilver, to him. Readers will be shocked when they witness the Witch's reaction during her first visit to Avalon, the mutant haven Magneto has created in space. And, they will absolutely not be able to put this story down when the Avengers West Coast, the Avengers, and the X-Men band together to take Magneto and Fabian Cortez down!

The **X-MEN/AVENGERS** Anniversary celebration is in full swing with this unprecedented crossover. All year long we've been celebrating with special limited series, including **DEADPOOL** and **U.S.AGENT.** We also launched the phenomenally successful "Hunt for Magneto" contest, the toll-free interactive phone game, and more. Excitement is at its peak for these teams and putting them together in a blockbuster crossover can only mean double the fun for readers and double the sales for you!

The X-Men guest star to help him recover, while considering an offer Magneto made to them. Will the X-Men turn their backs on the dream?

NOVA

Thanks to readers, **NEW WARRIORS** is one of Marvel's most spectacular triumphs. Now, fans have another treat in store when **NOVA**, a 4-issue limited series arrives in October.

Fabian Nicieza's script, complemented by the pencils of Chris (**SPIDER-MAN**) Marrinan, finds Nova's life on Earth falling apart. Nova doesn't have time for self-pity, however, as the Xandar Corps needs him to lend a little muscle to battle a villain of cosmic magnitude!

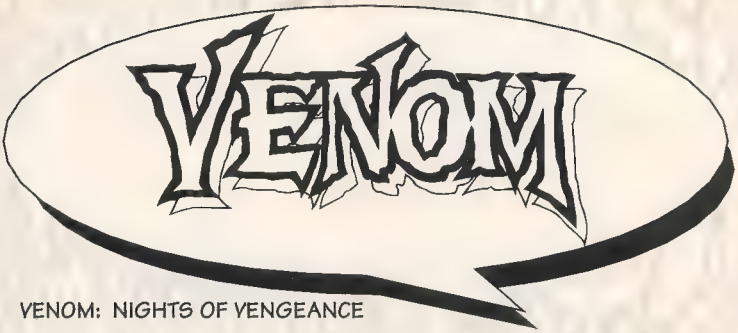
Chris Marrinan

NEW WARRIORS readers will clamor for this book when it appears, not to mention all your customers who look for a good story accompanied by good art. Fabian Nicieza's goal is to expand the **WARRIORS** Universe much the way the **X-MEN** Universe has expanded. When his **NIGHT THRASHER** premiered earlier this year, sales shot through the roof. We expect even better results for **NOVA**. This companion book to **NEW WARRIORS** and **NIGHT THRASHER** features a dynamic-looking Nova and is packed with fast-moving action!



VENOM: NIGHTS OF VENGEANCE

On the heels of the success of the second **VENOM** limited series comes a third, scheduled to premiere in October. Written by **SPIRITS OF VENGEANCE**'s Howard Mackie with art by fan-fave Ron (**SILVER SURFER**) Lim, the 4-issue **VENOM: NIGHTS OF VENGEANCE** guest stars the incredibly popular Ghost Rider. Imagine customers' reactions when Venom joins forces with Ghost Rider to face a most unholy menace! The Midnight Sons' sizeable readership will be drawn to this book, not to mention all the faithful who rushed into stores to buy Venom's previous limited series.

The first and second **VENOM** limited series were incredibly popular, and their audience is waiting for the third. **GHOST RIDER** and **SPIRITS OF VENGEANCE** readers will want to check out their hero teamed up with the erstwhile villain, especially since **SOV** writer Howard Mackie is scripting it! Fan-fave Ron Lim's artwork is always out of this world, but he's really outdone himself for this limited series. Stock up on **VENOM**—this series has legs!

TRANSFORMERS: GENERATION 2

One of the most important new series this fall is the ongoing **TRANSFORMERS: GENERATION 2**, scheduled for October. **G.I. JOE** readers will be hungry for **TRANSFORMERS**, due to the fact that its characters will have guest starred in **JOE** prior to its debut. It is also much grittier than its previous incarnation!

Hasbro's all-new Transformers line is one of the toy industry's briskest sellers this year, thanks to a multi-million dollar national television campaign. Recent Transformers commercials have mentioned Marvel's forthcoming **TRANSFORMERS: GENERATION 2**. Prepare for an onslaught of new young customers when it premieres!

MORT THE DEAD TEENAGER

REN & STIMPY readers who crave more than a monthly dose of twisted, far-out humor will cheer when **MORT THE DEAD TEENAGER** debuts in September. Written by **WOLVERINE** and **G.I. JOE** writer Larry Hama, this 4-issue limited series is loaded with laughs! It proves that even a writer with a reputation for hard-core action can have a great sense of humor. Hama was a longtime writer for and editor of the off-beat **CRAZY** magazine, and, believe us, in **MORT THE DEAD TEENAGER**, it shows. This limited series is penciled by another **CRAZY** alumnus, Gary Hallgren, whose work readers may remember from **TEEN HULK**.

The series gets off to a grimly funny start when unruly Mort dies in a car accident after borrowing his Dad's wheels to impress a girl. After doing time in teen afterlife, he ends up haunting his friends and family. He also makes some interesting discoveries, including the fact that his parents still haven't forgiven him for wrecking their car. Readers who howl over **REN & STIMPY** are going to love this series!

RED MIST 2020

Across the Atlantic, a major crossover is in the works. Consisting of six parts and entitled "Red Mist 2020," it runs through all Marvel UK's new titles for Fall 1993.

"Red Mist 2020" kicks off in **'ROID RAGE #1**, continuing in **'ROID RAGE #2**, **DEATH DUTY #1** & **2**, and **BLOODRUSH #1** & **2**. This action-packed adventure will explore Red Mist, the serum used to give Super Soldiers their powers, and the serum includes a mutating virus!

'ROID RAGE premieres in October, telling the story of Reno, a Super Soldier who survived a mutated batch of the Mist. The rest of his crew deteriorated and, eventually, died. But Reno doesn't get a long recovery period. His creator, Strasser, wants him back in the lab so he can inject him with another dose of mist, hoping to build an even more violent Soldier!

Strasser wreaks more havoc in **DEATH DUTY**, a **WILD THING** spin-off premiering in October. After building a new and incredibly powerful body for himself, he schemes to take over Death Duty, the five resurrected operatives working for S.H.I.E.L.D. Operative Jake Keller, working to prevent the hostile takeover, goes one on one with Strasser in a brutal confrontation.

Desperate to live up to his late father's expectations, Jake is back in **BLOODRUSH**, which arrives on our shores in October. Having illegally altered his body to make it bigger, stronger, and more lethal, Jake, along with Death Duty, head out to take Strasser down in an ultimate showdown.

To ensure a huge readership, each premiere issue arrives polybagged with a multi-part poster.
